“My experience at The Washington Center (TWC) went beyond my expectations, both personally and professionally. Before I came to the nation’s capital, I was a completely different person. Because of this experience, I was able to reaffirm my own path. Now I am a young professional committed to interacting with my community and confident enough to compete in the business world at both a domestic and international level. I highly recommend TWC because it is a great opportunity to become a better leader and develop any individual’s future career.”

“Spending a semester in Washington, D.C. was an unexpected thrill. During my internship, I worked with smart and talented people that helped me discover my potential and gave me confidence to pursue my dreams. While living, working and learning in the heart of the nation’s capital, I met great people from different cultures and with diverse backgrounds that helped me shape a unique, new perspective.

Because the program involved workshops, civic engagement activities and on-site visits to different organizations, I developed insight into D.C. that helped me take advantage of every opportunity. I developed ideas of projects that I would like to work on in my home country. As a foreign student, I’m so grateful I had The Washington Center guiding me through this life-changing experience.”
