

The Leadership Initiative for Students with Disabilities

William Uditsky '13

"The Washington Center (TWC) for Internships and Academic Seminars was a transformational experience, which aided in my social and professional development. Going into a big city was a bit overwhelming, but the opportunities that TWC provided for me were unmatched. I interned in the public sector with the U.S. International Trade Commission (ITC). I also attended lectures and programming once a week to learn professional development skills and network with some of the top leaders in the DMV area. I participated in the Veteran Outreach Civic Engagement Project where I volunteered with nonprofit companies, such as R.W.B. and T.A.P.S.

During my time at TWC, I made so many invaluable connections, such as a TWC Alumni who lectured my Business and Global Trade (BGT) group. This individual connected me with an opportunity to work with the Department of the Navy (DON) as an auditor. My experience at the ITC with internal controls and my knowledge of the veteran community was well suited for this position. After graduating from TWC, I was hired by the NAVAUDSVC.

Because of this individual and TWC, so many doors have opened. I cannot thank TWC enough for providing me with the resources and introducing me to D.C. leaders who have shaped me as a young professional. The sky is the limit, especially in an area like Washington, D.C."
